## JUNIOR SOCCER PROGRAM DESCRIPTION

This program has two goals: (1) to provide a fun soccer-learning experience to youth players by having them work with experienced coaches and (2) to develop parent coaches for future years when the program for older children relies on parent coaches for teams that participate in league play during the spring, summer, and fall.

On Tuesday evenings, experienced soccer coaches will lead older youth soccer players and parent coach volunteers in implementing age-appropriate developmental games in an academy style program. Players will work on improving dribbling, passing, and other basic soccer skills using drills and age-appropriate games. The emphasis is on fun and constant player activity. Parent coach volunteers will learn the basic structure of a soccer practice and be exposed to the skill development drills and games that will help prepare them to be confident successful coaches in the future.

### PLAYER AGE GROUP DEFINITIONS

Year of Birth		
2019	2018	2017
5 year old	6 year old	7 year old
All birth months during the qualifying years.		

On Friday evenings, the parent coaches with the assistance of the master coach will assist the players in forming teams and playing small-sided games implementing the skills they have learned. The emphasis is on playing for fun; there is no scorekeeping as the primary focus of this super mod program is to provide the young players the basic skills to be successful confident players in the future.

*Coaches Needed! Volunteer parent coaches are reimbursed half of their child's registration fee at the conclusion of the fall program provided they participate in the entire program. No previous soccer or coaching experience is required! Guidance and mentoring during the sessions by an experienced coach will provide the volunteer coaches with a unique learning opportunity.*
